

MEHTAB BADWAL

Senior UX Designer | AI & Platform Experience

mehtabbadwal@gmail.com | +1 619-302-1735 | mehtabbadwal.com/ | linkedin.com/in/mehtabbadwal/

SUMMARY

Senior UX & AI Product Designer with 6+ years designing user-centered solutions that drive measurable business outcomes. Expert in integrating AI/ML capabilities into enterprise software and connected hardware platforms, with experience leading cross-functional teams and building design systems that scale. Proven track record reducing operational costs by 25% and accelerating user adoption by 35% through strategic design and collaboration.

WORK EXPERIENCE

UX Designer | *HPE Aruba Networking, Remote*

- Sep 2024 – Present

- Integrated conversational AI into enterprise support chatbot through moderated usability validation and User Acceptance Testing, **reducing tickets by 25% and live agent calls by 30%**; framework adopted across 3 additional support products
- Delivered predictive analytics dashboards with data visualization and information architecture, **increasing customer renewal rates by 15%**
- Owned end-to-end design for Virtual Accounts and Premium Services using design thinking methodology, **reducing customer setup time by 20%**
- Designed **mobile-responsive and adaptive UX** for enterprise support platforms, ensuring usability across **desktop, tablet, and mobile breakpoints** in close collaboration with engineering
- Led cross-functional collaboration with Product and Engineering teams using Agile methodology, **cutting design cycle time by 40%**
- Leveraged **AI-assisted prototyping tools (Lovable, Cursor)** during early ideation to rapidly prototype UI concepts, validate interaction patterns, and align with engineering on feasibility before high-fidelity design

Lead UX Designer | *Stealth Startup, San Diego, CA*

- May 2024 - Sep 2024

- Designed AI-powered fintech platform enabling analysts and technical users to build and test AI-driven queries over large datasets using natural language processing, **reducing research time by 60%**
- Built sentiment analysis dashboards with data visualization and user journey mapping for financial reports, **cutting manual preparation by 40% and review time by 70%**
- Collaborated with product managers, data scientists, and engineers to define responsible AI-driven workflows and information architecture, driving early pilot adoption

Senior UX Designer | *Fluidra, Carlsbad, CA*

- Oct 2022 – March 2024

- Designed mobile and web applications for IoT-connected hardware using responsive design and user-centered design, **boosting app adoption by 35% and user engagement among service technicians**
- Established design system standards and component library using design ops methodology, reducing design inconsistencies and improving team scalability across multiple product workstreams
- Led unmoderated usability testing and A/B evaluations, moderating sessions and synthesizing qualitative insights that **reduced task completion time by 25%** while meeting WCAG 2.1 AA accessibility standards.
- Streamlined service operation workflows through cross-functional collaboration with Engineering and QA teams, **reducing customer complaints by 20%**
- Mentored junior designers in design thinking and best practices while conducting heuristic evaluations to ensure design quality across product portfolio

User Experience and Interaction Designer | *H&H Solutions, Consulting*

- July 2019 – Oct 2022

- Designed scalable UX systems and 100+ wireframes for **native mobile applications** across **iOS and Android platforms**, following platform-specific design patterns
- Led end-to-end visual design and interaction design for client mobile products, **improving accessibility compliance by 25%** and strengthening brand cohesion
- Created centralized design system with component library and design tokens, standardizing design processes across multiple client projects
- **Mentored team of 6 designers** in UX best practices and design thinking workshops, establishing design quality standards and improving project delivery timelines

Fashion and Technical Designer | *Fashion Retail Brands*

- Dec 2012 – Dec 2019

- Delivered large-scale, production-ready design specifications in fast-paced retail environments, building a strong foundation in detail-oriented, systems-driven design

SKILLS

Product & UX Design

User-Centered Design, Human-Centered Design, Interaction Design, Information Architecture, Design Strategy, Service Design, User Research, Unmoderated Usability Testing, Moderated Testing, A/B Testing, UAT, Heuristic Evaluation, Accessibility (WCAG), Persona Development, Qualitative Interviews

Systems & Platforms

Design Systems, Component Libraries, Responsive & Adaptive Design, Native Mobile UX (iOS & Android), Cross-Platform UX, iOS HIG

AI & Data-Driven Design

Conversational AI, Generative AI, AI/ML Integration, Responsible AI, Predictive Analytics, Data Visualization, AI-Assisted Prototyping (Lovable, Cursor, Figma Make, Claude Code)

Tools & Delivery

Figma, Adobe Creative Suite, Jira, Confluence, Agile/Scrum, Stakeholder Collaboration, Design Ops

Leadership

Cross-functional Collaboration, Stakeholder Communication, Mentorship, Design Facilitation

EDUCATION

USER EXPERIENCE DESIGN CERTIFICATE General Assembly, San Diego, CA	- Jan 2021 – April 2021
MASTERS IN BUSINESS ADMINISTRATION United States University, Irvine, CA	- 2014 - 2016
FASHION DESIGN Fashion Institute of Design and Merchandise, Los Angeles, CA	- 2012 - 2014
TEXTILE ENGINEERING Shri Vaishnav Institute of Technology and Science, Indore, India	- 2006 - 2010
